

I beg of the FCC not to implement any proposal that would lessen Indiana's Telephone Privacy law protections.

--Indiana's Telephone Privacy law has greatly improved my time at home. I used to get anywhere from 10-15 telemarketing calls a week and now I receive none. It used to take me at least 5 minutes every evening just to delete the recorded messages from telemarketers on my answering machine, now when I come home from work, the only messages that I hear are the ones that matter, from my family and friends.

I don't care if I have done business with a company or not, I do not want them calling me at home, interrupting the only special time I have and trying to sell me something. If I wanted information on their product, I would call them.

Thank you,
Kimberly L. Wheeler
